WHAT THEY SAY

"Untapped saved my race. I was in a significant deficit and feeling poorly as I began the race. I then tucked into my 33 ounces of Ginger Mapleaid from Untapped and felt so much better and this saved the day I had a great day after that. Great products great people. Serious sports nutrition!"

– Roxy

"I'm a distance runner and mountain runner with a PICKY stomach. I tried for years to find a fuel that wouldn't cause tummy trouble and would keep me going for ultra distances. My favorites are the mapleaid the lemon waffles and the pure maple syrup. I love Untapped for the quality, performance, and local vibe."

– Alison

"I love Untapped for its taste and clean products that provide energy on all my long runs! Great personal service too."

– Susan
